DUE DILIGENCE PROCESS REVIEW
Annual pacing plans are developed in the context of multiple year investment horizons. This is necessary because private capital investments deploy and return capital over time rather than all at once.
Due Diligence Processes

As part of Annual Search Processes

The 2019 Private Equity search process has culminated in ~$418 million of closed and/or recommended investments, in line with the $525 mm primary pacing model goal for the year.

Search processes are approved in annual amounts. Progress will be made throughout the year as opposed to all at once.

PORTFOLIO CONSTRUCTION
**Private Equity Portfolio Statistics**

**Strategy Diversification**

*Strategy considerations:*

2015: *Overweight special situations early for J-Curve mitigation, efficiency of capital deployment, and tactical opportunities.*

2016: *Focus on growth opportunity set and continue to add buy-out exposure.*

2017: *Round out buy-out portfolio, and opportunistically add to growth and credit.*

2018: *Steady state on pacing, selectively adding new relationships and European exposure*

2019: *Steady state on pacing, selectively added new relationships and Venture and European exposure.*
The overall goal remains identifying top quartile performers to partner with.

Position sizing considerations:

Continue to reduce the unallocated portion of the private equity portfolio while sensibly balancing the trade-off between diversification and concentration.

Areas of focus are enhancing manager diversification, and building strategic relationships where possible/appropriate.

Geographic Diversification

*TMRS is focused on taking a measured approach to global geographic diversification.*

The Target Portfolio keeps a conservative stance on international exposure.

MANAGER SELECTION AND RECOMMENDATION
FTV Capital ("FTV" or the "Firm") is a San Francisco and New York based growth equity firm founded in 1998 that targets investments across the Enterprise Technology & Services, Financial Services, and Payments & Transaction Processing sectors. FTV is targeting $1 billion for FTV VI, L.P. ("FTV VI" or the "Fund") to make both control and structured non-control investments ranging from $20 million to $85 million. These companies will have proven business models, generating $10 million to $100 million in recurring revenue while growing at least 20% annually with high gross margins. The Firm will continue executing the same strategy it has employed since Fund III, when they fully refocused from venture capital to growth equity.
