Introducing the City Services Department

TMRS recently created a new City Services department to focus even more on delivering superior services to participating cities. Along with a dedicated Senior Regional Manager for your city, our City Services staff will handle all of your issues and questions about:

- Plan administration
- Monthly payroll reports and support
- Plan changes
- In-person and virtual education sessions
- City administrator certification
- City Portal support and training
- Changes to the city's list of authorized contacts
- City council meetings and workshops
- Any other TMRS issues your city faces

To provide an introduction to our City Services staff and an explanation of the new department's goals, check out our new [video](#).

Please [contact us](#) if you have any questions.

Anthony Mills
Director of City Services
