Prevent Payment Delays

If you've recently opened a new bank account or changed banks, don't forget to let TMRS know! If you haven't notified TMRS, you may not get your monthly payment on time. The only way to update your direct deposit information is by mailing or faxing a new Direct Deposit Authorization Form (TMRS-80E). Make sure the form is complete in order to prevent any payment delays.

Are You a Member of a City Retiree Association or Group?

If your city has an association for city retirees that meets regularly, we'd like to hear from you. TMRS would be happy to send a representative to a future meeting to update your group on TMRS topics. Please send contact information about your organization to our Communications Department.
